Election/Restrictions

1. Claims 1-31 are pending.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-24, 27-31 in part, drawn to a tricyclic compound wherein X is CH or C, i.e. a piperidine, classified in class 546, subclass 93 and its composition, class 514, subclass 290 and its method of use.
 - II. Claims 25, 26, claims 1-24, 27-31 in part, drawn to a tricyclic compound wherein X is N, i.e. a piperazine, classified in class 544, subclass 361 and its composition, class 514, subclass 253 and its method of use.

The inventions are distinct, each from the other because of the following reasons: the instant group I and II compounds are structurally diverse and they have different chemical and physical properties. They do not have a common core structure as shown by their different classification. A reference anticipating group I piperidinyl invention would not rendered obvious the group II piperazinyl inventions. Since the search for Group I is not required for Group II, it is not co-extensive and is burdensome, restriction for examination purposes as indicated is proper.

3. A telephone call was made to Mr. Bernstein on 11-8-2002 to request an oral election to the above restriction requirement, but did not result in an election being made. A written restriction requirement was requested.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention and a species within the elected group to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

Art Unit: 1625

currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evelyn Huang whose telephone number is 703-305-7247. The examiner can normally be reached on Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alan Rotman can be reached on 703-308-4698.
